

How to submit DNAs for sequencing

Written by Seok-Yong Choi on 12-2-2009

1. DNA amount: 10 μ l of plasmid DNA (100 ng/ μ l); 10 μ l of purified PCR product (50 ng/ μ l);
2. Enter DNA info into the Macrogen web page (<http://dna.macrogen.com/kor/>)
3. The sequencing result will be available in the Macrogen web page in the evening of the following day.
